### Alex Rider - Stormbreaker

Stormbreaker is the first in the series of books about Alex Rider—the teenage spy. Written by Anthony Horowitz, the book is an exciting must read for anyone who enjoys action, adventure fiction.

Alex is a 13 year old boy who finds himself all alone in the world, with no-one but the paid house keeper, after the mysterious death of his uncle in a car crash. Alex must face the evil might of Herod Sayle to uncover the truth about his life.

Once you start this book you really will not be able to put it down and will be begging your parents to buy you the sequels.

Anthony Horowitz is a superb writer who is able to draw the reader into his plots and amazing action sequences. His books cover a range of genres from detective (The Diamond brothers—suitable for younger KS2) to Horror and supernatural (The Power of Five—older KS2).
